

Phil Shirley

Secretariat & PR Director

HIGHWAYS TERM MAINTENANCE ASSOCIATION

HTMA Members

Our Vision

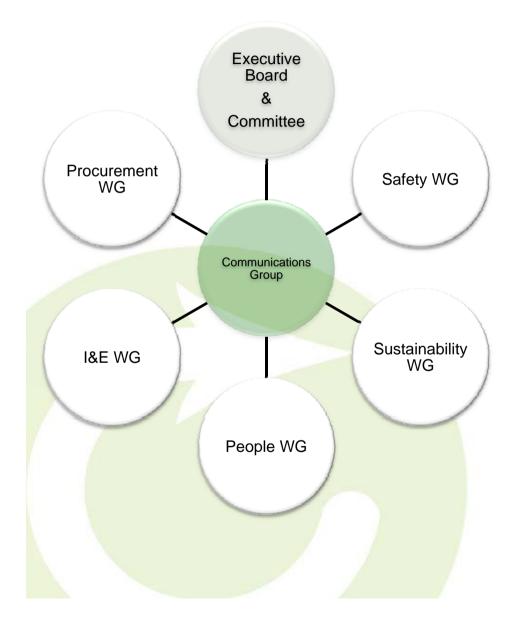

"To promote the development of an economically and environmentally sustainable highways management and maintenance industry for the United Kingdom."

Our Strategy

"To be a representative voice of the highways maintenance industry, promoting its overall image, sharing knowledge and feedback, fostering best practice and industry standards, whilst influencing government and other stakeholders' policies."

Delivering Tangible Benefits

Best Practices – making the industry a better, safer and more sustainable place to work.

- □ Alcohol & Drugs Testing

"Working Together for Better Roads"

HTMA Conference, Westminster 13 October 2009: Local Authorities (LAs) voted on key issues...

46% of LAS Adapting to

Climate Change is the most important sustainability issue facing the highways maintenance industry today.

78% of LAS Affordability will

most strongly influence sustainability in the highways maintenance industry.

91% of LAs Current

procurement practices in the highways sector are not truly sustainable

61% of LAS Highway users

receive good value for money from the highways management and maintenance industry

92% of LAS Tackling the

sustainability agenda is bringing in benefits
