#### FSM - The Paper Process

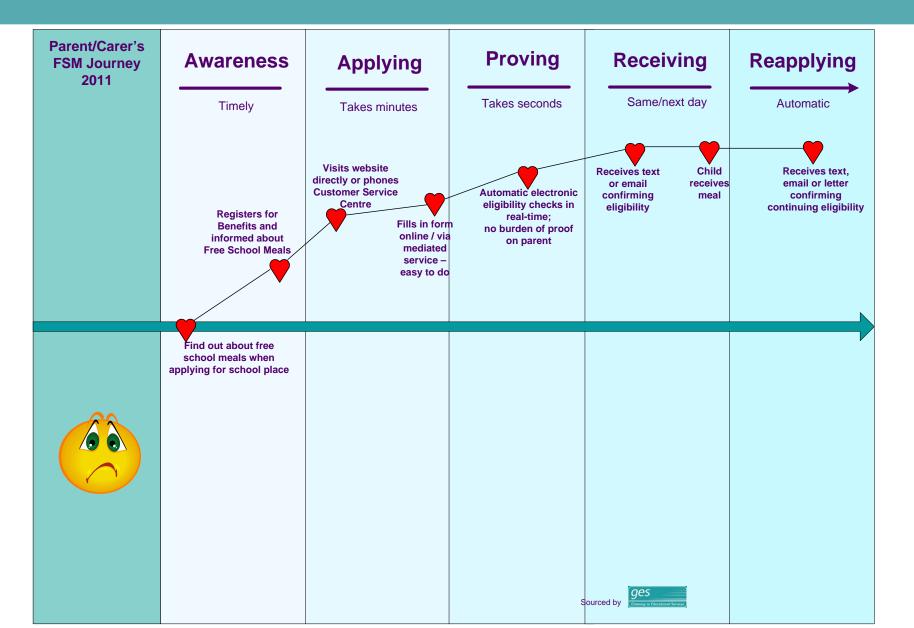

The vision for OFSM is of a seamless 'end-toend' service enabling parents/carers to apply online for free school meals (FSM) in one quick, simple and easy process. Incorporating realtime eligibility checking, parents/carers and local authorities (LAs) will be rapidly informed of eligibility and by automated notification to schools, children will be offered an FSM by the start of the next working week.

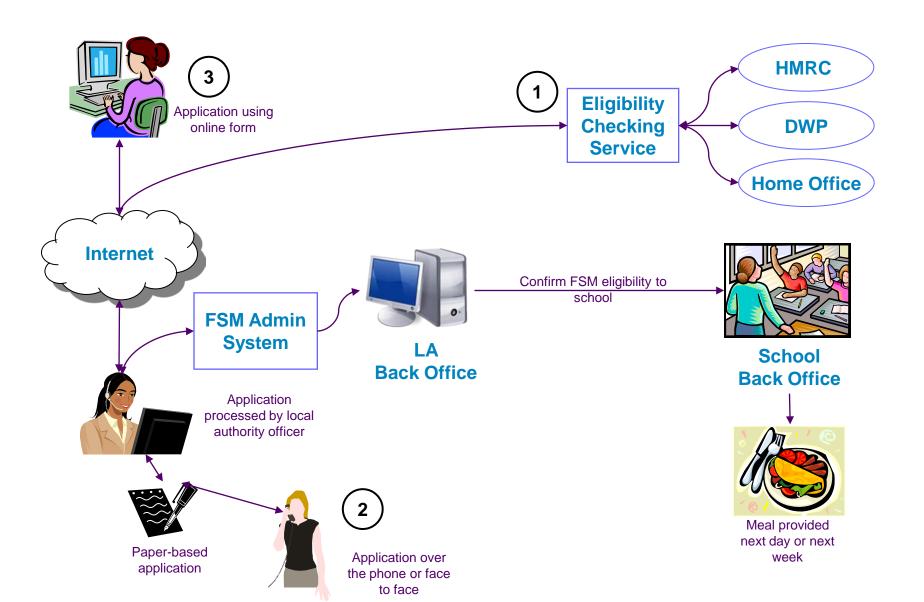

#### **OFSM - The New Process**

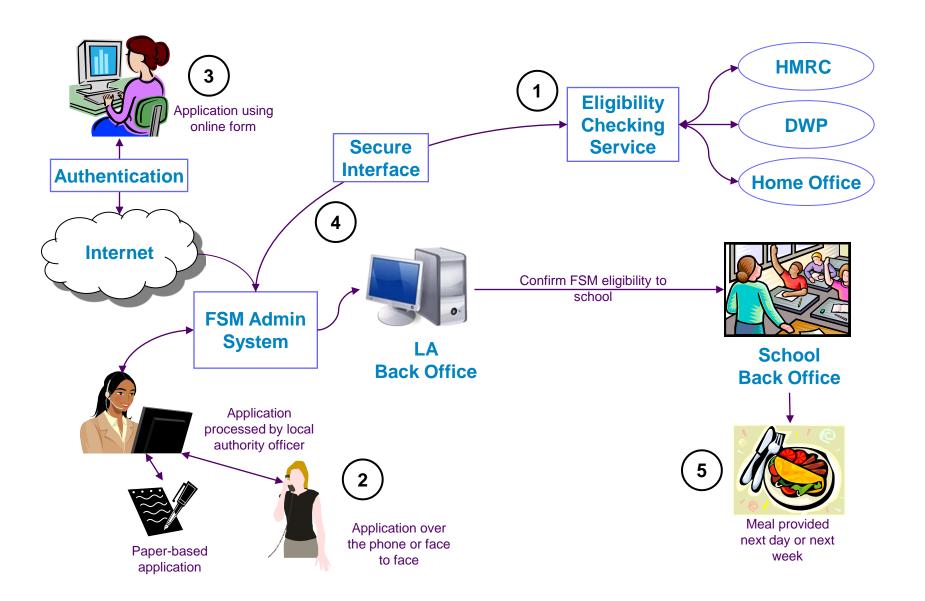

# Steps to Achieving the Vision

# Steps to Achieving the Vision

# 5 Steps to Achieve the Vision

- 1. Use the DCSF ECS for FSM applications, renewals and audit
- 2. Improve the LA business process and remove the need for paper proof of benefit at application and renewal
- 3. Introduce online forms for parents/carers to apply for FSM
- 4. Use web services to provide a seamless OFSM service to parents/carers
- Work with schools, suppliers and caterers to ensure that free school meals are provided for eligible children by the start of the next working week

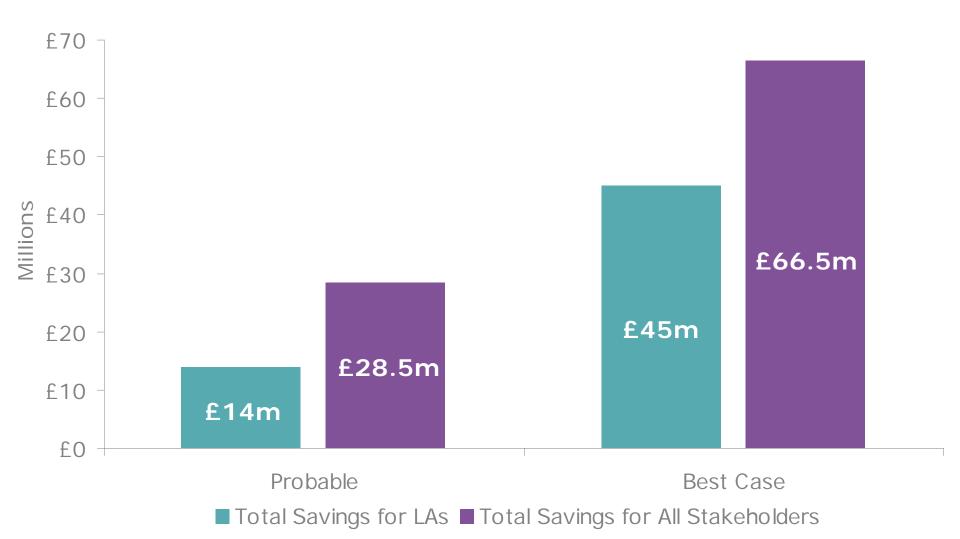

- 6 early adopter authorities plan to go live with realtime eligibility checking by end of March 2010
- 10 LAs have linked to the Prototype web service ECS
- 4 LAs are now live with web service (real-time) eligibility checking

## **OFSM: The National Picture**

- 116 LAs in England used the ECS in February 2010 (76%), this is the highest number recorded.
- 11 NWeGG LAs used the ECS in February 2010 (52%), this is 57% increase year on year.
- 128 English LAs have now used the ECS (84%).
- 13 NWeGG LAs have now used the ECS (62%).
- 98 LAs in England (64%).
- 47% of NWeGG LAs used the ECS over 50 times in February 2010.
- 80 LAs in England (52%).
- 38% of NWeGG LAs used the ECS over 100 times in February 2010.
- There were 220,196 queries of the ECS by English LAs in February 2010.
- 70 people at 63 LAs have requested the OFSM Starter Pack.
- 30 LAs have membership on the GES CoP website.

## Service Cost Savings

The total cost savings achievable through improving the OSA process is shown below. This takes into account the cost per transaction and the overall total cost to each stakeholder group.

#### **Total Cost**

The total cost data shown below shows the total cost per year for each stakeholder group. This includes every occurrence of all activities and **includes** any activities performed beyond the total number of applications. The Total potential savings are also indicated.

Total Annual Transactions 1,500,000

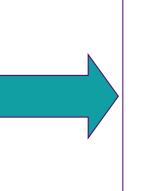

|              | Current Cost Future Cos |               | Potential Saving |
